SOME CONGRESSMEN THINK THAT NO SATISFAC-TORY REVENUE LEGISLATION CAN BE EN-

REPRESENTATIVE GROUT'S VIEWS. Washington, Nov. 17 -- It is noteworthy that many of the Republican Senators and Representatives who the election believe that it will be impracticable to enact any satisfactory revenue or finan-cial legislation at the coming session of Con-riess, and that some of them are strongly inclined

to think it would not be wise or expedient to attempt to do so. Some also either favor a special session of the LVth Congress in the spring to deal

session of the LVth Congress in the spring to deal with these matters, or believe that one is inevitable, whether they favor it or not.

Among those who strongly advocate a special session is Representative Grout, of Vermont, who is in Washington. In the course of conversation to-day, he said: "I think there is little question that there will be enough votes in the next Senate the right kind of a tariff bill, and if the to enact the right kind of a tariff bill, and if it is sible to pass a bill there is no good reason why an extra session should not be called in order to get the work done just as quickly as possible. If I were to have my own way, I would have a call stready drawn up, so that immediately after the manufacture of the Republican President both branches of the LVth Congress might be summoned to meet in special session at noon of the following day. It ought to be the very first act of the new Administration. There is no reason why the House should not be able to get to work on a tariff bill right away. Fortunately, every member of the Republican majority of the Ways and Means Committee in the present House has been returned to the next, and I believe Speaker would be glad to have them go to work at need upon the preparation of a new bill, which could be ready to submit to the House very soon after its assembling next spring. In this way a great deal of time can be saved, and the sooner the country knows what kind of a tariff bill is going into effect the better. The work ought to ne by June, and the people could then start out in earnest on the career of prosperity which Republican success assures.

the Dingley bill this winter. There is no reason to suppose, even if the bill were to pass, that it would meet the approval of the President. The wool sched-ule alone would probably be enough to insure a seto; and if that is to be the outcome, the less time wasted by the Senate over the bill the better for all concerned. If the Senate can pass the bill without any great expenditure of effort, very well. It could go to the President then, and he would be responsible for its future. But more than this it would not be wise for the Senate to undertake. In any event, there ought to be a special session, and a permanent revision of the tariff ought to go into effect just as on as may be. This is what the people expe

"I have no fear about the complexion of the next enate. If the Republicans depend upon the free-Senate. If the Republicans depend upon the free-sfiver Republicans of the Far West to help them out. I think they will not be disappointed. These men are all protectionists, and their constituents are greatly interested in Protection. Their instinct is to act with the Republican party; and then it is to be borne in mind that it will be to the personal advantage of every one of them to support a tariff bill in the success of which the Administration will be vitally interested. By holding aloof they can only alienate the men who will be in power for the next four years. I do not believe that when the time comes these Senators will be found willing to sarring their own future when, to save it, they are face their own future when, to save it, they are talled upon only to act with the party with which they have hitherto acted in Congress."

THE WORLD'S SUPPLY OF RAW SUGAR.

IT IS GREATER THAN THAT OF 1895, NOTWITH-STANDING THE ENORMOUS DECREASE IN CUBA.

ply of the world surpasses that of 1895, notwith-standing the enormous Cuban deficit, according to official statistics received at the Department of State from Consul-General Karel, at St. Peters-burg. From his report it appears that the shortage which Russia suffered this year in the wheat and rys crop will be more than made up by the inreased beet-sugar production, and this increase is common to other European countries. The committee of Russian Ministers officially determines for each period of production the quantity of sugar to be turned out by the sugar factories for the home market, which this year was fixed at over 500,000 tons, an excess over last year of 50,000 tons, and the Ministry of Finance has decided to lower the prices on account of the cheapening of manufacture, the improvement of beet cultivation and this year's excellent harvest, the new price being \$2.39 per pood of 35.112 pounds, against \$2.44 last year. The official estimate of the world's rawsugar product for this year is as follows:

Production of beet sugar, 4,960,000 tons; produc-tion of cane sugar, 2,655,000 tons; stock on hand, tion of cane sugar, 2.655.000 tons; stock on hand, 1150.000 tons; total, 8,765.000 tons. Last year the corresponding total was 8,290.000 tons. The estimated consumption for the ensuing year is placed at 7.350.000 tons. The amount exported from Cuba, the principal producer of cane sugar, is estimated at 450.000 tons, and probably will not reach that amount. In the season of 1895-96, Cuba furnished 392.796 tons, in 1894-95 754.002 tons, and in 1893 1.150, 172 tons. These figures, the report says, show what an influence the insurrection in Cuba has on the sugar industry, and this will be felt for some time, for, even if the difficulties shortly cease, the Cuban production could not quickly rise to the former figures, on account of the destruction of property there.

WHERE WAS "THE ENEMY'S COUNTRY"!

IT WAS UNNECESSARY FOR BRYAN TO COME EAST

TO FIND IT. Washington, Nov. 17 (Special) .- A letter received by the Republican Congressional Committee yes terday from the office of the County Clerk at Lin-coln, Neb., contained a statement which shows that the recent campaign in order to penetrate what he styled the "enemy's country." The statement gives ctively, and the majority received by the for Bryan's precinct he received 102 and McKinley re-ceived 198 votes; McKinley's majority, 96. In the lives, as also do Holcomb, the Popocratic candidate for Governor, and Broady, the Popocratic candidate for Congress, McKinley received 808 and Bryan re-ceived 511 votes: McKinley's majority, 297. The city of Lincoln, Bryan's home, gave him 2.838, and Mc-Kinley 3.850 votes: McKinley's majority, 1,012. The county of Lancaster, in which Lincoln is, gave Bryan 5,678 and McKinley 6,505 votes; McKinley's Bryan 5,575 and McKinley 6,505 votes: McKinley's majority, 823. The 1st Congress District, in which Lancaster County is included, gave McKinley 18,436 and Bryan 17,732 votes; majority for McKinley, 704. There was no place in the United States, probably, where the fight was hotter than in the Fifth Ward of the city of Lincoln, in which Bryan, Holcomb and Broady all live. The result was that McKinley received the biggest vote that has been cast for a Republican candidate in that ward within the last seven years. In 1890 the Republican vote was 685; in 1891 it was 562; in 1892, 662; in 1803, 565; in 1894, 667; in 1895, 723, and in 1806 McKinley received 808 votes.

COAST DEFENCE WORK.

REPORT OF THE ORDNANCE AND FORTI-FICATIONS BOARD.

GOOD PROGRESS MADE IN FORTIFTING HARBORS IN THE LAST YEAR-CONGRESS URGED TO

Washington, Nov. 17 .- The annual report of the Board of Ordnance and Fortifications, composed of lst Artillery; Colonel Peter C. Hains, Corps o Engineers; Major F. H. Phipps, Ordnance Depart Captain J. C. Ayres, and ex-Representative

in part:

Under the increased appropriations of the present fiscal year, the work of placing our harbors in a proper state of defence is making good progress, and if only the same sums are appropriated annually for a few years, our principal ports will present a formidable front to an attacking fleet. It is hoped, however, that even more liberal appropriations will be made, in order that we may sooner be ready for an emergency that may arise at any time. In view of the present serious aspect of European politics, it is only common prudence for this Nation to be on its guard, for, should a conflict arise, we are liable to be embrolled with some Power whose navy, in the present defenceiess condition of our coasts, might destroy or exact enormous ransoms from our chief cities.

A war, if it come at all, will come with no warning and no time for preparation. China, with undefended ports and an inadequate navy, was defeated in a few months. In the last war between the great military Powers of Germany and France, the surrender at Sedan occurred only forty days after the declaration of war. The wars of nations occur in cycles of varying length, but seldom does a generation pass without a great conflict. Aiready more than thirty years have clapsed since our last great war, and another may soon, if the longest intervals of peace we have ever enjoyed.

Our Engineer Department is ready with its most

the longest intervals of peace we are loyed.

Our Engineer Department is ready with its most modern plans for fortifications, and our Ordnance Department is prepared with designs for guns and carriages that are equal to any in the world. If Congress will but increase the appropriations to the capacity of those departments for useful and economical work, it will not be long before our coasts are secure against the attack of foreign Powers. An effective preparation for war is the best safeguard against war.

To the report is appended the report of the Board

To the report is appended the report of the Board recommends that, in the construction of the em

position, due consideration be given to the importance of providing for a system of fire control and communication between batteries, and for all other necessary appliances; and that appliances for this system be provided at Fort Monroe, Fort Hancock and San Francisco Hathor, where high-power guns, pneumatic guns and mortar batteries are now in position or under construction.

The Board visited the various establishments doing ordnance work for the Government, and was impressed with the lack of economy that results from the irregularity and uncertainty with which work is carried on under the present system of making appropriations. The Board is more than ever convinced of the wisdom of the recommendation it made in its last report, that regular annual appropriations be made for seacoast defences and their armament.

NAVAL AND ARMY ORDERS.

Washington, Nov. 17.-The gunboat Castin in the personnel of the ship having been ordered by the Navy Department to-day: Commander T. Perry will be succeeded by Commander R. N. Berry, ants R. G. Davenport, A. M. Knight, S. Cook and Ensign C. C. Davidson. Those ordered to the Castine are Lieutenant H. T. Houston, detached from the Vermont; Lieutenant H. Morrell, detached from the Massachusetts; Lieutenant J. H. Holcombe, de tached from Bureau of Equipment; Lieutenant J. Strauss, detached from the Washington Navy Yard, and Ensign M. H. Signor, detached from the Branch Hydrographic Office, Savannah, Ga.

Other naval orders are as follows: Lieutenant R. F. Lopez, detached from the Patterson, on three months' leave; Lieutenant W. Winder, detached from the Wabash and ordered to the Katahdin; Lieutenant D. W. Coffman, detached from the Texas and ordered to the Columbia; Ensign M. I. Bristol, detached from the St. Mary's and ordered to the Texas; Passed Assistant Surgeon J. S. Sayre placed on the retired list.

The Alert is under orders to sail to-night from San Francisco to relieve the Adams as guardship San Francisco to relieve the Adams as guardship at Honolulu. Hawaii. The Adams has been the only United States vessel there since early in January last, and it has been deemed desirable by the Administration, while not increasing the naval force at the islands, to make a change in the station and give to the Adams some needed repairs at Mare Island, for which purpose she is now ordered to come home after the Alert arrives.

The President to-day appointed Captain A. L. Wagner, 6th Infantry, now on duty at Leavenworth, Kan., major and assistant adujant-general, and Captain A. H. Jackson, 7th Infantry, now on duty at Albany, N. Y., inajor and paymaster.

foregone conclusion by an apparently new investigation of facts. It is a comfort to feel that at least the Nars head fable is remanded to the shades, with other myths. And it is still more satisfactor to know that either one of two alternatives is irresistible by the Bishop's own reasoning either Roman orders are invalid, since they were not conferred for centuries in the Roman Church according to what he new considers the essential form, or else Anglican orders are valid, because they have been conferred always by the same form as tinat defined to be essential by the Council of Trent, or by a form even stronger and more definite, the laying on of hands, with the words "Receive tor "take") the Holy Ghost."

It is still more curious and confortable to note that so for as the intention of the Church is concerned (the matter of laying on of hands and the expression of intention is clearer in the English than in the Roman Church. For the English ordinal orders to the Pressylverate (Pressylveratus), and the English ordinal specifies the "Ministry of Sacraments," whereas the Roman ordinal omits it.

The sod cert of it all is the fact that the new dogma of Papai infailtibility, and the very fallible manner of its exercising widen the branches of Christerdom, and increase the hindrance to unity.
